

Melissa is a country girl at heart who loves being outdoors. She enjoys exploring state parks, going camping and canoeing, going on leisurely bike rides, and reading.

She also enjoys playing piano and would love to have a big garden.

Melissa L. Breiter

Melissa joined Mattson Macdonald Young in 2006 as an Engineering Technician. She has worked on projects large and small including the Pine City Elementary School Addition, Heartland Credit Union in Inver Grove Heights, Boutwells Landing in Oak Park Heights, and Minnehaha Academy in Minneapolis.

Melissa is an experienced AutoCAD user and is continually gaining knowledge of Revit Structure. She has taken training classes on Revit Structure and is working toward becoming an adept user in order to help others in the firm.

One fun project that Melissa had the opportunity to work on was the Minnesota Zoo Play Area. She created 3D renderings of a giant mosquito for children to climb on from the structural model created by the project engineer. To see them, go to MMY Case Studies on the News page.

Education

Bachelor of Arts Degree in Environmental Studies,
University of Minnesota Duluth, 2001

Associate in Applied Science Degree in Architectural
Drafting and Design, Hennepin Technical College, 2006
