Young** structural engineers

Isaac Bliet, E.I.T.

Isaac joined the MMY team as a full-time engineer in summer of 2019 after spending the previous two summers as an intern. He enjoys working on a wide variety of projects in both new and existing structures, and is gaining valuable experience in wood, concrete, and steel design.

Isaac has spent most of his time working on traditional projects ranging from multi-family apartments to commercial buildings, but really appreciates the unique, atypical projects that foster creative thinking. Isaac strives to learn as much as he can daily and is embracing life as a full-time engineer.

Isaac has been an avid golfer for most of his life. He played for the School of Mines team during his undergrad years and was fortunate enough to help coach during his last year in grad school.

In addition to hitting the links, Isaac enjoys almost any outdoor activity, including biking, running, hiking, and camping.

Education

Master of Science in Civil Engineering - South Dakota School of Mines and Technology, Rapid City, 2019

Bachelor of Science in Civil Engineering - South Dakota School of Mines and Technology, Rapid City, 2018

Registration and Memberships

American Concrete Institute
ASCE
